

COMPANY PROFILE

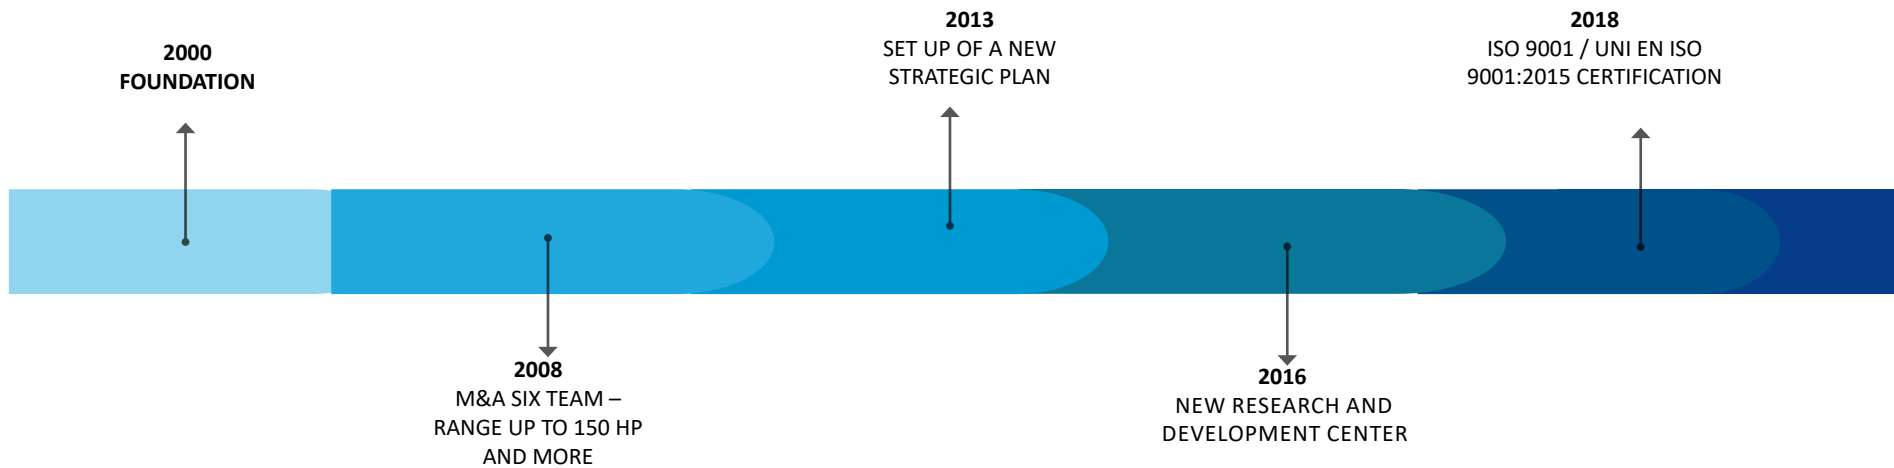

“An adequate supply of good quality water is a prerequisite for a social and economic progress.”

(European Union, 2011)

WHO WE ARE

SIX TEAM is a company founded in 2000 that designs, produces, and manufactures in Italy self-priming and centrifugal pumps

WHAT WE DO

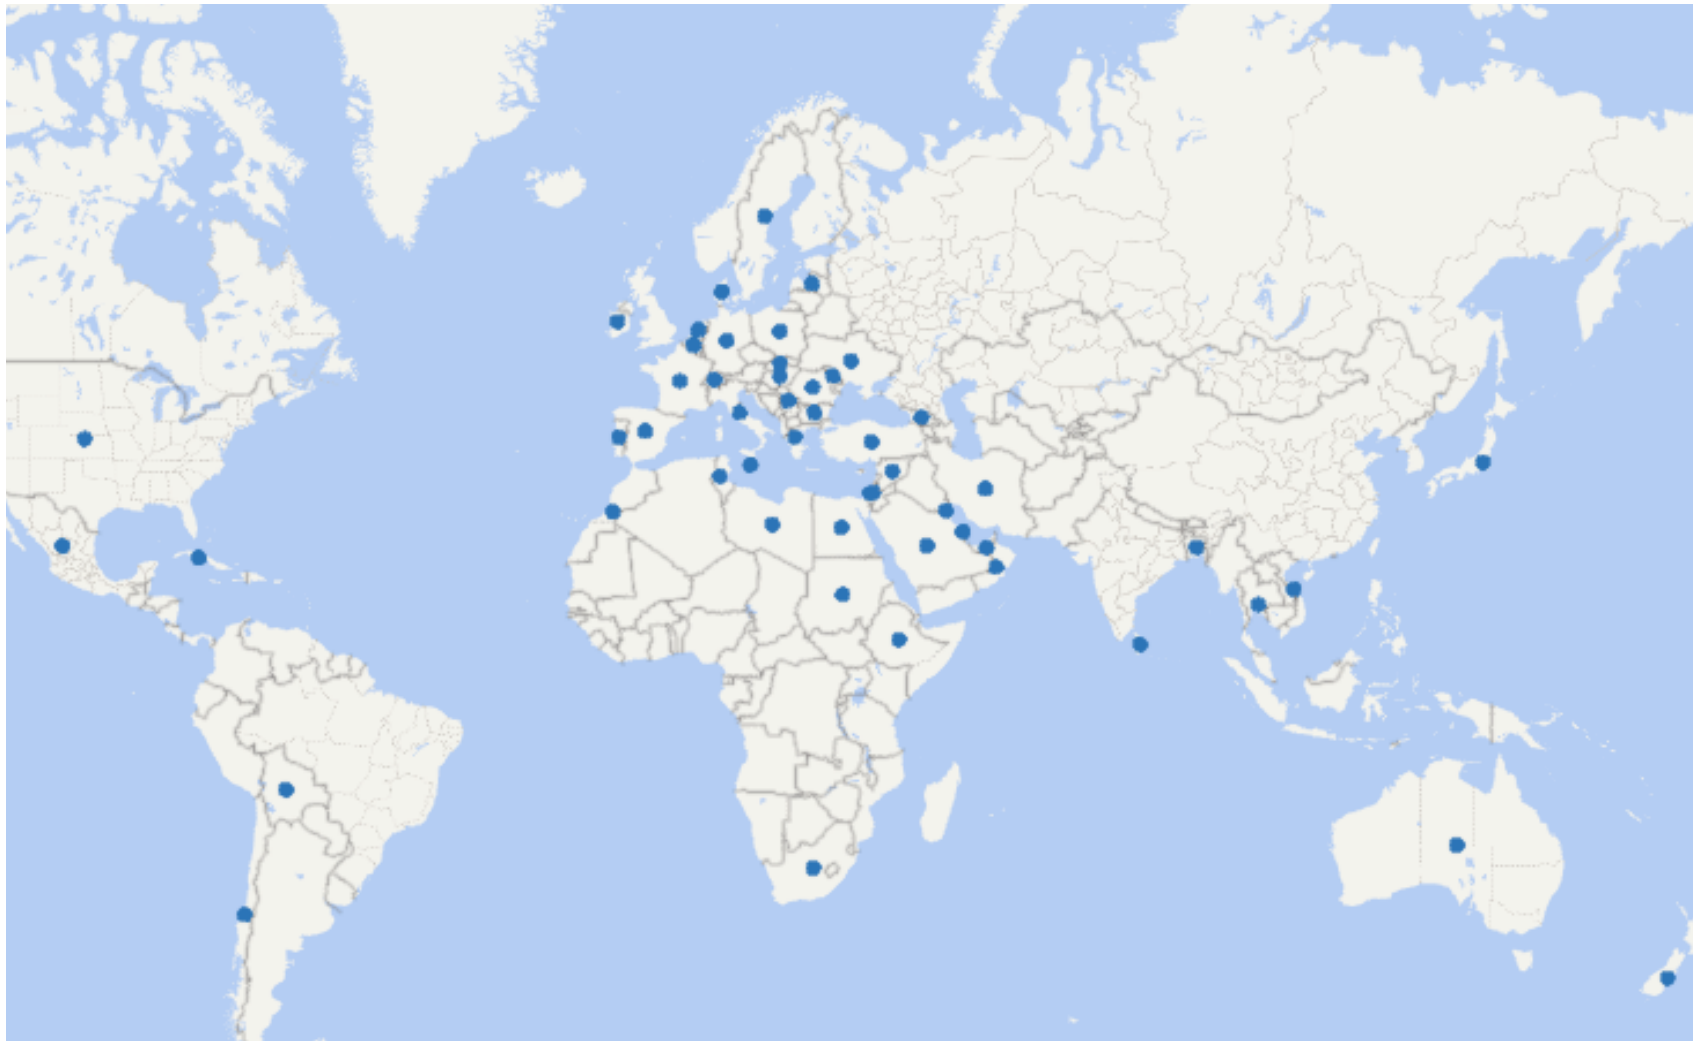

The production in SIX TEAM runs on three tracks, which are conception, design and assembly: the latter phase takes place exclusively in our factories located in Italy, while the supply of raw materials and semi-finished products comes from a selected network of domestic suppliers.

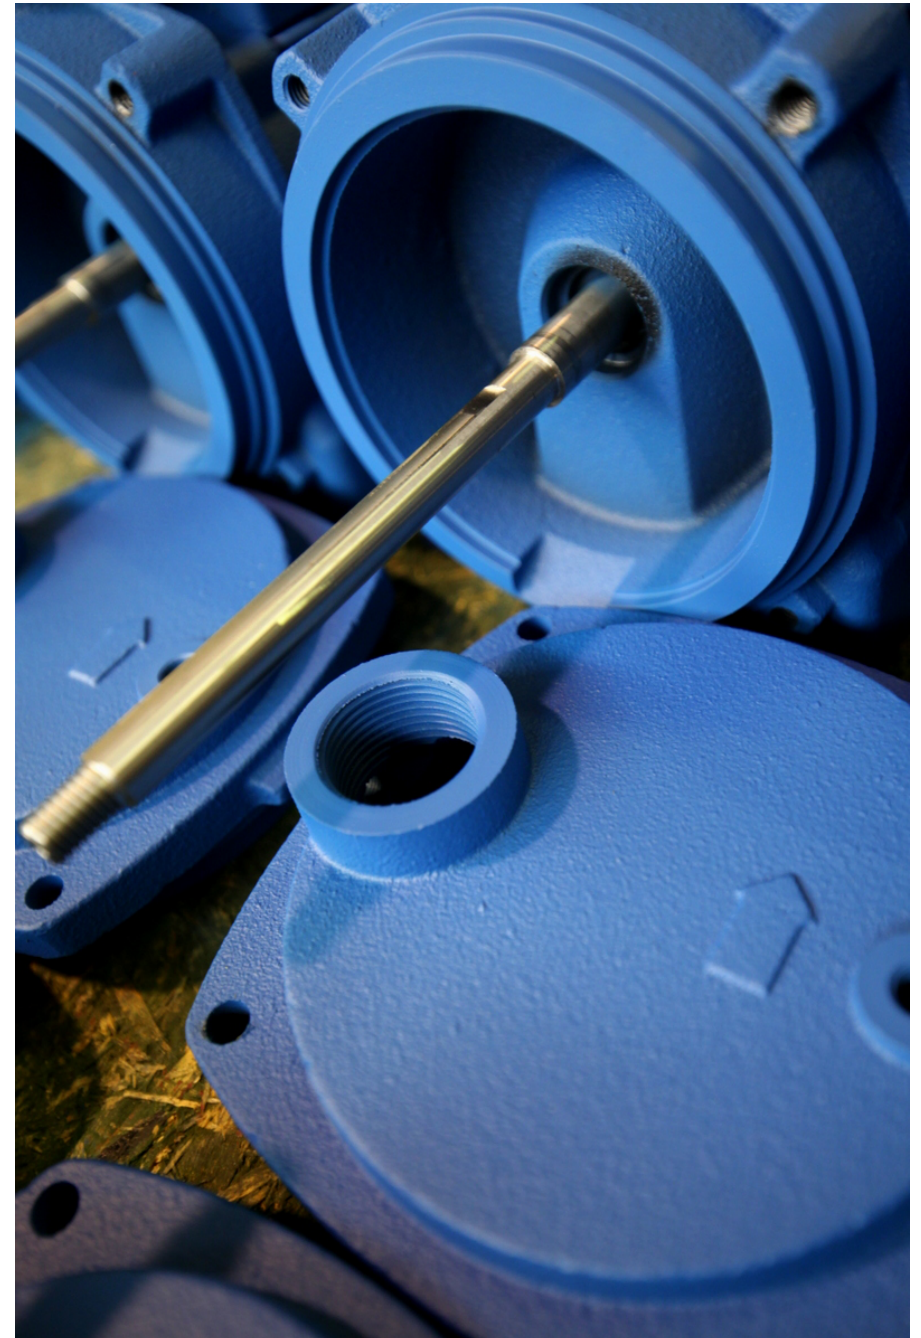

**SIX TEAM offers solutions for domestic, industrial and agriculture,
having a range starting from 3 up to 200 m³/h .**

WHERE WE EXPORT

SIX TEAM is recognized as a leading player in the industry, exporting its high quality pumps to more than 60 countries all over the world.

DESIGN & DEVELOPMENT

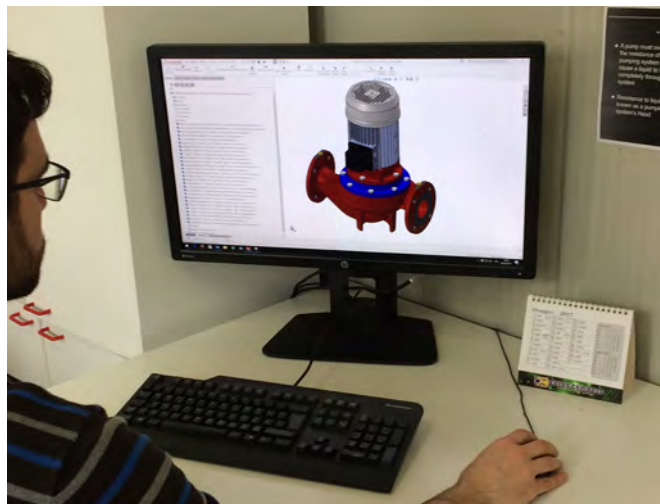

In order to lead the market, SIX TEAM keeps studying to stay up to date with new technologies and restyling of the pumps.

The Company is equipped with the latest manufacturing technologies, ensuring the highest standards for the quality of all its product lines.

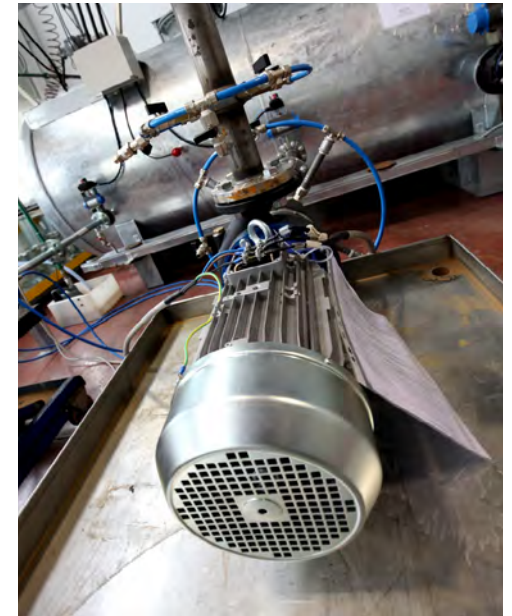

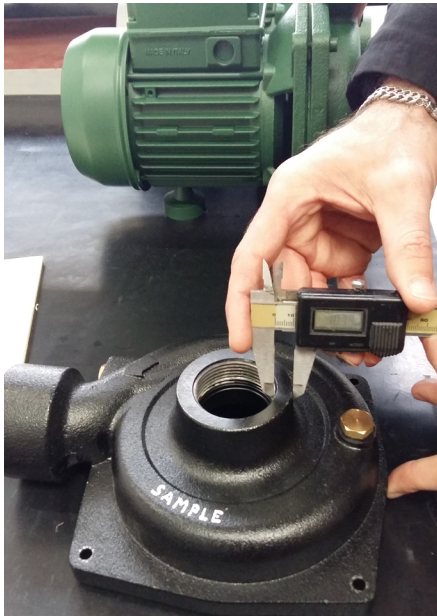

The care devoted by SIX TEAM to each stage of the manufacturing process, begin with the crafting and assembling of the components, the painting and finally the testing check before the pumps leave the factory.

Innovation is the solutions to customers' needs: in SIX TEAM we pay attention not only to the reliability and efficiency of our products, but also to the aesthetics which is often overshadowed, but we are sure that it is appreciated by the market and stands out our products among those of our competitors.

Sea Land always aim to create valuable products to whom which chooses them, but above all providing a

QUALITY CONTROL

Our technical department carries out meticulous checks with professional equipment regularly subjected to strict controls and calibrations.

Quality is a philosophy that we decline in every phase of our work, and that's why you can find it into every detail of our pumps: if our technology can guarantee us production flexibility, the ability of our technicians ensure attention to each craft work step.

In this way, SIX TEAM is able to check the final performance of all its products, matching the expectations of the most demanding customers.
