

Six Team es una sociedad que produce electrobombas de agua, para el sector doméstico, industrial y agrícola. Los estándares elevados de calidad en los productos son la garantía de la empresa, la planificación y el control exigente de la producción en todas las etapas constituyen un gran empeño en las inversiones realizadas y en aquellas que se realizarán. La construcción de los propios productos se realiza rigurosamente en el establecimiento en Italia, en una provincia de Padua, garantizando así la exclusividad y la confianza del Made in Italy.

El servicio a los clientes está garantizado por nuestro centro de distribución interna, que cubre con las demandas provenientes de todo el mundo, y distribuye los productos en más de 70 países.

PROGRAMMA DE PRODUCCIÓN

برنامج الإنتاج

Six Team, è una società che produce elettropompe per acqua, impiegate in usi domestici, industriali e in agricoltura. Gli elevati standard di qualità nei processi produttivi sono il successo di questa azienda. La progettazione e il severo controllo della produzione in tutte le sue fasi costituiscono un grande impegno negli investimenti fatti e quelli per il futuro. La costruzione dei propri prodotti viene effettuata rigorosamente e lo stabilimento in Italia, in provincia di Padova, ne garantiscono l'esclusività e l'affidabilità del Made in Italy.

Il servizio ai clienti è garantito dal nostro centro di distribuzione interno, che copre richieste provenienti da ogni parte del mondo, distribuendo il prodotto in oltre 70 paesi.

Six Team manufactures water pumps, for domestic, industrial and agricultural applications. The high-standard manufacture processes represent the company success. The design phase, the sever control of production, a huge investment in tooling and machinery constitute the main engagements of our company.

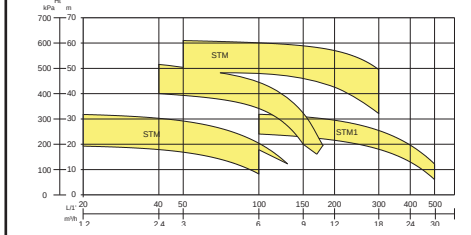

Manufacturing and assembling phases are performed in one factory in the province of Padua, therefore components are rigorously produced in Italy. Our customer service is guaranteed from our distribution center, and it answers to all the different enquires that came from all over the world, since Six Team distributes water pumps in almost 70 countries abroad.

ELETTROPOMPE DI SUPERFICIE
SURFACE ELECTRIC PUMPS

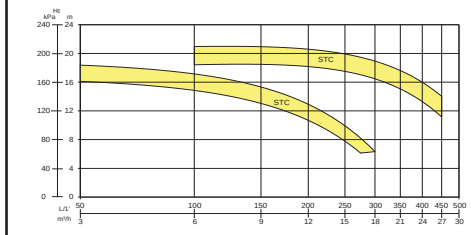

STM - STM1

Elettropompe centrifughe monigrante
Centrifugal electric pumps one impeller

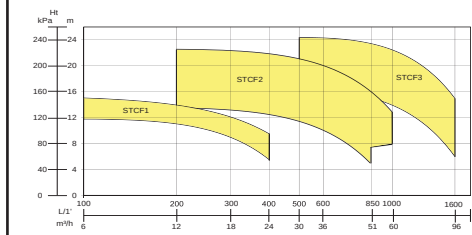

STC

Elettropompe centrifughe monigrante
Centrifugal electric pumps one impeller

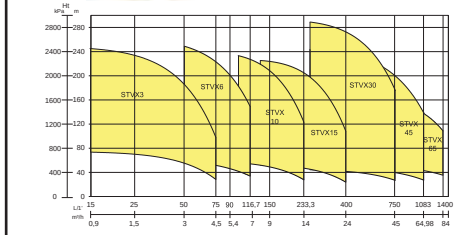

STCF

Elettropompe centrifughe monigrante
Centrifugal electric pumps one impeller

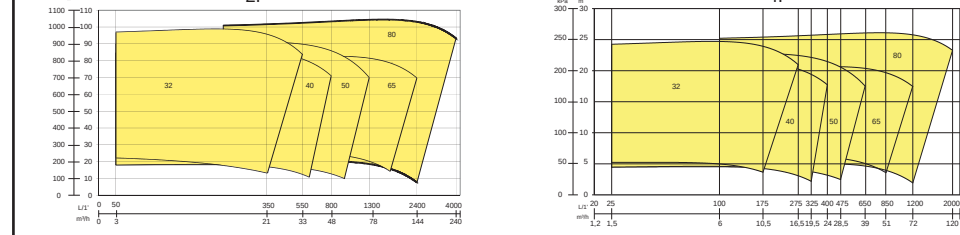

STVX

Elettropompe centrifughe multistadio
Multistage centrifugal electric pumps

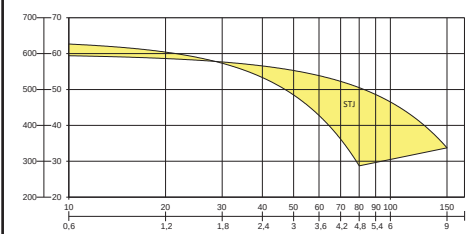

STN - STNG - STNE - ING

Elettropompe centrifughe monoblocco
Close-coupled centrifugal pumps

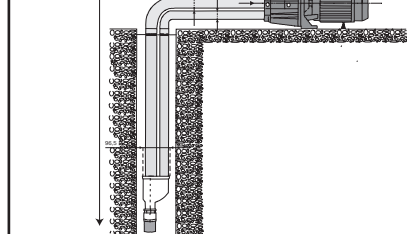

STJ

Elettropompe centrifughe autoadescenti
Self-priming centrifugal electric pumps

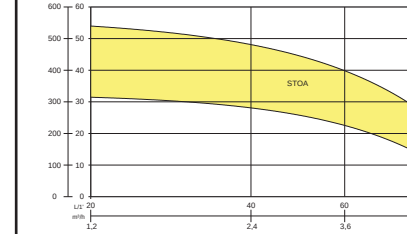

STA

Elettropompe centrifughe autoadescenti
Self-priming centrifugal electric pumps

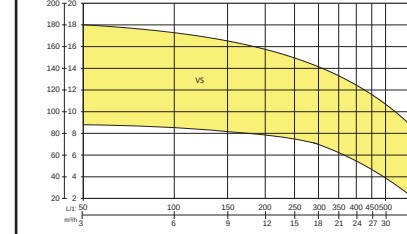

STOA

Elettropompe centrifughe autoadescenti
Self-priming centrifugal electric pumps

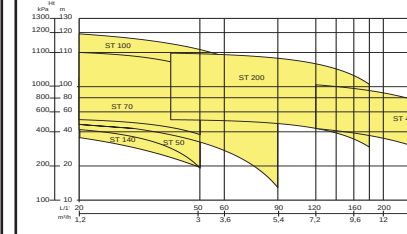

VS

Sommergibili per acque reflue
Submersible for wastewater pumps

ST

Sommerse per pozzi profondi
Submersible monobloc multistage

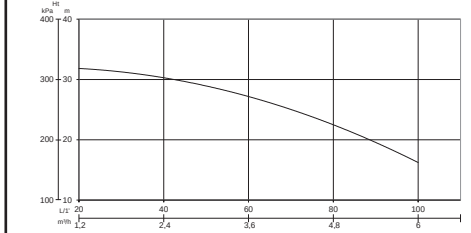

FORMULA MOTO

Motore sommerso con statore riavvolgibile da 4"
4" submersible motor with rewindable stator

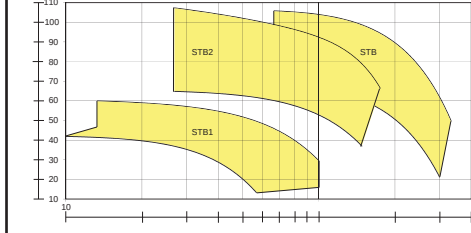

STMX 101

Elettropompe centrifughe monigrante
Centrifugal electric pumps one impeller

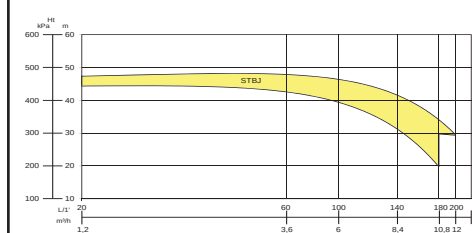

STB

Elettropompe centrifughe multistadio
Multistage centrifugal electric pumps

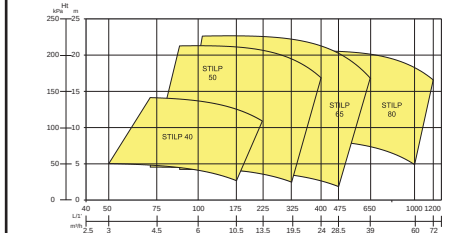

STBJ

Elettropompe centrifughe multistadio
Multistage centrifugal electric pumps

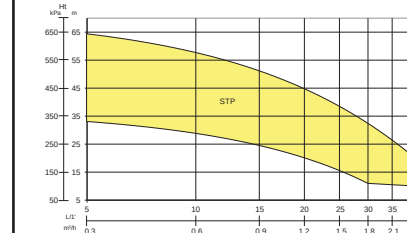

STILP

Elettropompe centrifughe IN-LINE
IN-LINE centrifugal pumps

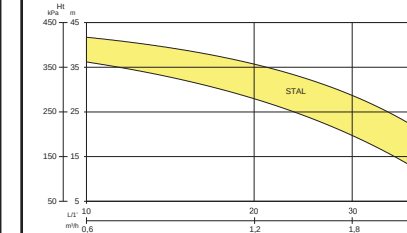

STP

Elettropompe monoblocco periferiche
Close-coupled peripheral pumps

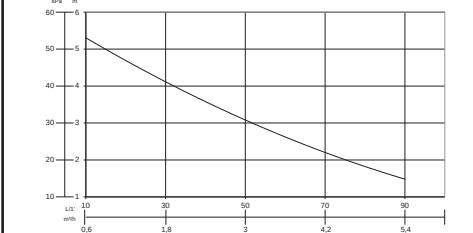

STAL

Elettropompe monoblocco periferiche
Close-coupled peripheral pumps

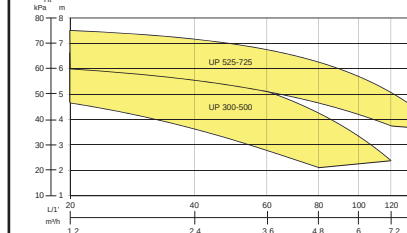

WAPY

Sommergibili per drenaggio
Submersible draining

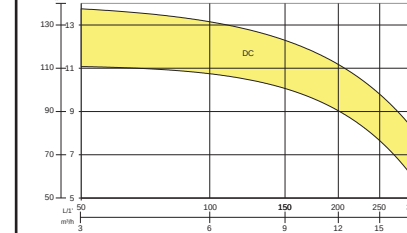

UP

Sommergibili per drenaggio
Submersible draining

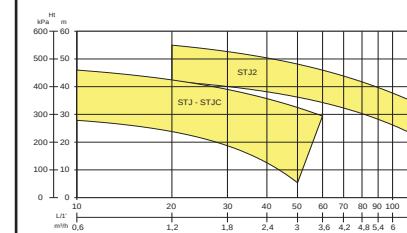

DC

Sommergibili per drenaggio
Submersible draining

PRESS

Gruppi di pressurizzazione automatici
Automatic pressure system

AT2

Gruppi di pressurizzazione
Booster - Sets

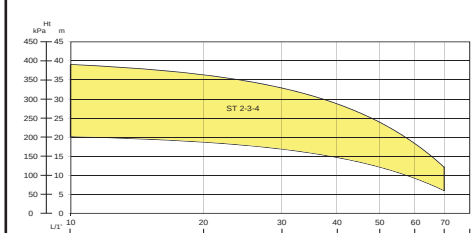

STAU

Gruppi antincendio
Fire - fighting units

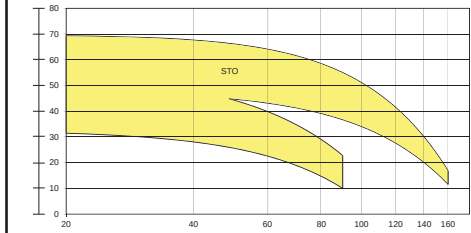

ST 2P-3P-4P

Elettropompe centrifughe multistadio
Multistage centrifugal electric pumps

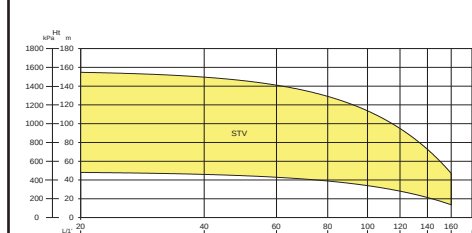

STO

Elettropompe centrifughe multistadio
Multistage centrifugal electric pumps

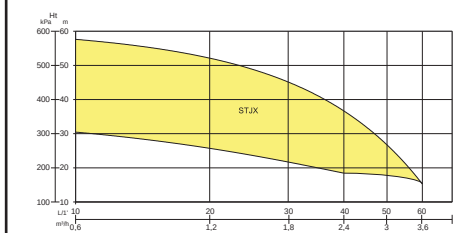

STV

Elettropompe centrifughe multistadio
Multistage centrifugal electric pumps

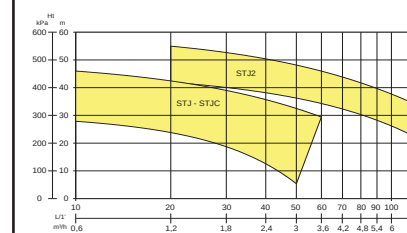

STJX

Elettropompe centrifughe autoadescenti
Self-priming centrifugal electric pumps

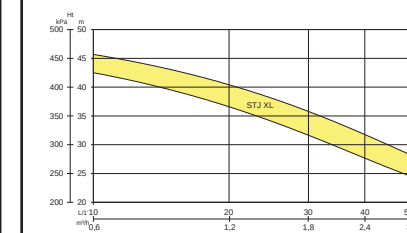

STJC-STJ-STJ2

Elettropompe centrifughe autoadescenti
Self-priming centrifugal electric pumps

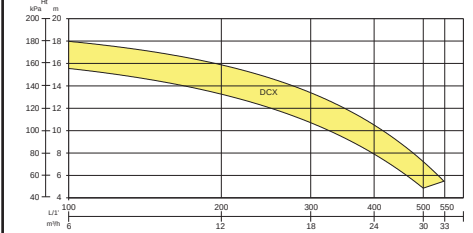

STJ XL

Elettropompe centrifughe autoadescenti
Self-priming centrifugal electric pumps

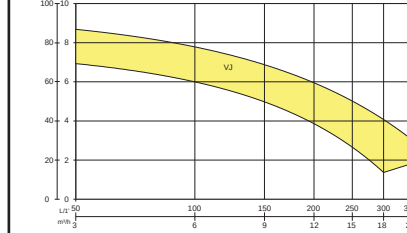

DCX

Sommergibili per drenaggio
Submersible draining

VJ

Sommergibili per acque reflue
Submersible for wastewater pumps

VX

Sommergibili per acque reflue
Submersible for wastewater pumps
